

Jacob Poole

Frontend Developer | React | Next.js | TypeScript | TailwindCSS

jacobpoole84@gmail.com | 843-229-3407 | Charleston, SC | [LinkedIn](#) | [jacobpoole.dev](#) | [github.com/JacobPoole84](#)

Summary

Frontend developer with production experience in React and Next.js. Shipped a real-time AI skin analysis platform integrating OpenAI Vision API and GSAP animations, and a full-featured NFT marketplace with Firebase Auth, Firestore, and 15+ reusable components. Strong in responsive UI, state management, and third-party API integration. Seeking a full-time frontend role where I can contribute to production codebases immediately.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, TailwindCSS, Redux, React Query, React Hook Form, GSAP

Backend & Data: Firebase (Auth, Firestore), REST APIs, Node.js

Tools & Platforms: Vercel, Git, GitHub, Figma, Vite, Stripe, Jest, React Testing Library, VSCode

Experience

Skinstric AI - Remote Sep 2025 - May 2026

Frontend Engineer | [skinstric-xi.vercel.app](#)

- Built a real-time AI skin analysis platform using Next.js and OpenAI Vision API, achieving sub-2-second analysis times across diverse skin conditions.
- Engineered responsive UI with TailwindCSS and GSAP timeline animations for a smooth, multi-step analysis flow across all device sizes.
- Optimised performance with Next.js Server Components and Lottie animations to reduce time-to-interactive on the analysis screen.
- Built a modular component library for skincare product displays, enabling rapid layout iteration and A/B testing of recommendation cards.
- Integrated an image processing pipeline combining OpenAI Vision API with a 4D Mini model for enhanced skin tone and texture accuracy.

BidPal, Inc. - Charleston, SC 2012 - 2019

Event Technology Lead

- Deployed and managed Wi-Fi networks and AV systems for large-scale nonprofit fundraising events, supporting hundreds of concurrent mobile bidding users.
- Served as sole on-site technical lead, diagnosing and resolving hardware and connectivity issues in real time during live events with no downtime tolerance.
- Coordinated with event organizers and venue staff to plan and execute technical setups, consistently delivering reliable systems under tight pre-event timelines.

Projects

NFT Marketplace | [Live Demo](#) | [GitHub](#)

React, Firebase Auth, Firestore, REST APIs

- Built a responsive NFT display platform using React and Firebase, integrating Firestore and RESTful APIs to serve digital assets at scale.
- Developed 15+ reusable components and implemented secure Firebase Auth for user authentication.
- Delivered a mobile-first UI with full cross-device compatibility, working in an Agile team with Git and JIRA.

Modern UI / UX Showcase | [Live Demo](#) | [GitHub](#)

React, TailwindCSS

- Collection of modern UI/UX design patterns and reusable layout components demonstrating animation techniques and responsive design.

Education

FES Institute Sep 2025 - May 2026

Frontend Engineering Certificate

University of South Carolina 2002 - 2006

Bachelor of Science, Exercise Science
