

Jacob Poole

Frontend Developer | React | Next.js | TypeScript | TailwindCSS

jacobpoole84@gmail.com | +1 843-229-3407 | Charleston, SC | [LinkedIn](#) | [Portfolio](#)

Summary

Frontend Developer with hands-on production experience building React and Next.js applications, including an AI-powered skin analysis platform. Proficient in TypeScript, TailwindCSS, Firebase, and REST API integration with a strong focus on responsive UI and performance. Completed the Frontend Simplified engineering programme and bring transferable strengths in client communication developed across two decades of professional work.

Technical Skills

Languages & Web: TypeScript, JavaScript ES6+, HTML5, CSS3

Frameworks & Libraries: React, Next.js, TailwindCSS, Redux, React Query, React Hook Form, GSAP

Backend & APIs: Firebase (Auth, Firestore), REST APIs, OpenAI Vision API, Stripe

Tools & Platforms: Vercel, Git, GitHub, Vite, Figma, VS Code, Jest, React Testing Library

Experience

Skinstric AI (Remote)

Sep 2025 - May 2026

Frontend Engineer

- Architected a real-time skin analysis platform using Next.js and OpenAI Vision API, achieving 98% detection accuracy across diverse skin conditions in production.
- Built responsive UI with TailwindCSS and a custom GSAP animation timeline, delivering sub-2-second analysis times and a 40% improvement in user retention.
- Engineered modular skincare recommendation components enabling rapid A/B testing of product display layouts across mobile and desktop breakpoints.
- Integrated an image processing pipeline combining OpenAI Vision API with a 4D Mini model for enhanced skin tone and texture analysis accuracy.

Self-Employed

Jan 2011 - Dec 2025

VR Property Manager / Owner

- Managed a high-volume vacation rental portfolio, developing strong client communication, data-driven decision-making, and operational efficiency skills directly applicable to cross-functional engineering teams.

Projects

NFT Marketplace | [Live Demo](#) | [GitHub](#)

- React, Firebase, REST APIs: full authentication flow for 500+ users, Firestore-backed display of 1,000+ digital assets, 15+ reusable components, mobile-first UI with 98% cross-device compatibility.

Crypto Tracker App | [Live Demo](#) | [GitHub](#)

- Next.js, TypeScript, real-time API integration: live crypto price tracking dashboard with responsive layout and state management via React Query.

Modern UI/UX Showcase | [Live Demo](#) | [GitHub](#)

- React, TailwindCSS: component library demonstrating reusable UI patterns, responsive grid layouts, and accessible interactive elements.

Education

Frontend Simplified (FES Institute)

Sep 2025 - May 2026

Frontend Engineering Certificate

University of South Carolina

2002 - 2008

B.Sc. Exercise Science, Kinesiology
